

Role Assignment & Permissions

Manage access control levels across the WebTIC FIS platform. Configure granular permissions for administrative, academic, and faculty roles to ensure secure and appropriate system access.

Select Role

- ☒ **Admin**
Full system access
- ☐ **Docente**
Academic management
- ☐ **Presidente CPGIC**
Program oversight
- ☐ **Miembro CPGIC**
Committee reviewer

+ Create New Role

Permission Inheritance
Changes made to base roles will propagate to all users currently assigned to that role unless overridden individually.

Docente Permissions

Configure granular access for the selected role across modules.
